Presenter

Dr Denis Mowbray FCG FGNZ
PRESIDENT & INTERNATIONAL COUNCIL MEMBER

Denis is a specialist advisor working in the corporate and not-for-profit sectors. His area of specialist expertise is behavioural governance. His ground-breaking PhD research identified that while compliance and regulation are important, it is the combination of behavioural characteristics and attributes existing within and between the board and executive, operating as a 'Third Team', which allows the board to influence the executive who impacts organisational performance. His work with boards is highly regarded, which sees him work frequently, both locally and internationally, with government, corporate and not-for-profit organisations.

Denis is an award-winning contributor to Mondaq, the world's largest legal article syndication network writing on a range of governance topics.

Denis is recognised as a creative and strategic thinker, who has broad general management experience. It is this desirable melding of practical experience and knowledge, combined with his consulting and academic experience, that gives Denis powerful insights into the behavioural governance issues facing government, businesses and not-for-profit organisations.
