Governance NZ and RiskNZ sign MoU

Governance New Zealand, a leading independent professional body that is the home of excellence for governance professionals is pleased to announce the signing of a Memorandum of Understanding (MoU) with RiskNZ, a leading sector and professional body in New Zealand that brings together people and organisations managing risk.

Governance and risk management play key, and often intertwined roles in our everyday business activities while also playing a significant role in many crucial deliverables.

This agreement came from a shared understanding that while the two organisations have different objectives, we share many similarities that will allow us to work together on specific initiatives and activities.

The MoU will allow both Governance NZ and RiskNZ to leverage these similarities and combined strengths to better meet the ever-increasing demands faced by our members in this ever-evolving business environment.

Knowledge sharing and collaboration on key activities and events will offer Governance NZ and RiskNZ members the opportunity to increase their own knowledge and understanding about our diverse yet intertwined sectors. It will also provide opportunities for members to network and increase their own contact base, with access to:

- Key webinars.
- Specific events and networking opportunities.
- Specific industry knowledge from either organisation.
- Involvement in planned special interest groups both governance and risk related.

The MoU is for an initial 12-month period that will be reviewed at the end of the duration to ensure the advantages to members have materialised as expected.

About Governance New Zealand:

Governance New Zealand Inc. is New Zealand's leading independent professional body with a sole focus on the practice of governance and is dedicated to providing leadership in the areas of governance, compliance and risk management. Members enjoy global recognition and are supported through ongoing professional development, advocacy and technical updates to advance the best international practices and standards.
